Men having beauty treatments is something that is becoming more and more popular, with brows being one of the most popular treatments. Whilst a lot of guys will decide not to opt for a perfectly defined look, there is still a brow style to suit you, and we like to call it The MAN Brow.

The man brow is something most guys can carry off, it's a mixture of groomed and tailored without been overworked and kept quite simple and masculine. Keep the brows full and flat, textured and with minimal curves or angles. Having a brow treatment to some men can be quite scary as you never know if the stylist will make them too shaped or too perfect and strip them of your manliness, but don't fear. Our HD Brows Stylists are trained to keep men's brows as they should be, manly. Unless you want a more glamorous look of course.

## LVL (Lash Volume Lift)

LVL straightens your natural eyelashes at the root, so unlike a traditional lash perm it creates the effect of longer, lifted, fuller lashes. They will stay this way for six to eight weeks especially when you nurture your lashes with our exclusive Nouveau conditioning treatment. The results are immediate, plus the added lash tint creates a mascara type effect so you are always ready to go. No extensions, no adhesive, no need for mascara!

**LVL The original lash lift - 60 mins.....£60.00**

### How does it work?

By straightening your natural eyelashes at the root and then tinting them, the LVL Lash Lift gives you the appearance of longer, thicker lashes. No mascara. No messing. Just perfect lashes from the moment you wake up.

### How long will it last?

Around 45 minutes with our expert LVL lash technician. It's a closed-eye procedure too. Relax. Time for a power nap. You're then set for up to 8 weeks.

### Will it damage my natural lashes?

Nouveau Lashes are the undisputed authority in lash care. So you can be assured that our LVL products have been specifically formulated and tested to prevent damage to your lashes.

### What aftercare is involved?

LVL is a low maintenance treatment so it's easy to keep your lashes looking fresh; just ask your technician for details. For more information please see the Nouveau Lashes aftercare page.

**\*All tint treatments require a 48hr patch test prior the treatment\***
